Intervention Urged California Lawmakers At San

MADE SPEECH OF DAY

Spanish Minister Entertained In Honor of Explorer Cabrillo

SAN DIEGO, Cal., Sept. 25.—The arising day of the United States to intervene and restore peace to Mexico, United States Senator John Works, in delivering the oration of the day at the dedication of the site of monument to Juan Rodriguez Ca-
brillo, took occasion severely to criticize conditions in Mexico and the attitude of the United States.
"What are we to do, this great nation of ours, with this heritage that has come down to us?" he asked. "The responsibilities are of a great deal. Are we ready to meet them? Just to the south of us, almost within reach of gunshot, our people are being unassassinated and our country is outraged daily. What are we doing to do about it?" he asked.
"I believe a grave mistake has been made in that great problem for which we are responsible under our guardianship of the peoples south of us as mandated under the Monroe doctrine. I am convinced to say we have not dealt adequately with that situation. It is the weakness and softness of our government to protect its citizens. I do not believe we have protected that adequately in Mexico. We sent our blue jackets ashore in our countries, they lack in Mexico. I have no criticism to make on the part of the President of the United States. We speak from intervention. I believe the President is justified in his efforts to avoid it. But these conditions cannot go on—forever."
Senator Works commended the "good old-fashioned powers" in patiently waiting for the United States policy Work itself out.

SAN DIEGO, Sept. 25.—The second day of pugnacity and merry-making commemoration of three great landmarks in Pacific coast history closed evening amid scenes of carnival revelry. The day was devoted to honoring the memory of Juan Rodriguez Cabrillo, on the 28th of September, 1542, sailed from San Diego harbor with the little San Salvador.

Victoria and was the first sailor to set foot on what is now California soil. Tonight the Spanish mission Don Juan y Gayangos, and Commander Robert L. Henry, who represented President Wilson, are being entertained at a banquet given by the city of Panama.

LOS ANGELES, Sept. 25.—After examining the tax rolls and other records of the five counties in southern California, John B. Carter, director of internal revenue for the sixth district, reported to Washington today that 60 persons resident in this section are liable for the income tax to be levied by the federal government. The number of taxable persons have incomes ranging from \$20,000 to \$50,000 a year. Forty must pay taxes on incomes between fifty and one hundred thousand and twelve have been found whose incomes are more than \$60,000. The rest of the 24,000 tax payers have incomes between \$3,000 and \$10,000 a year.

GOVERNOR DELAYS THAW DECISION

ctment By Grand Jury
In New York

RECORD, N. H., Sept. 25.—A dissenting opinion is said to exist among Governor Felker's advisers as to whether he should honor the request of New York for the extradition of John H. Thompson. Some of them take the attitude that the New York papers are not in proper legal form and that it is necessary for the governor to go before the grand jury in the manner. Others say the state house take an opposite view.

Governor Felker, himself a lawyer, is understood to attach importance to obtaining further information on the subject of the reported indictment of Thompson by the Dutchess county (New York) grand jury, especially in connection with his escape from the Canadian asylum. It is said that unless the governor learns more definitely what attitude has been taken by the Dutchess county grand jury he

LOS ANGELES, Sept. 25.—Making a denial of all accusations against him and asserting that his knowledge of certain inmates of the Jonquil "hotel" had been gained entirely through philanthropy, George H. Bixby, the long known philanthropist, took the witness stand in his own defense today.

The defendant's story, in which he told of efforts to aid some of the girls who had accused him and in which he asserted his absolute ignorance of the existence of others who testified against him, was heard by a crowded court room.

He began his recital by telling of his first acquaintance with Emma J. Goodman, the proprietress of the Jonquil, who now is serving a year in the county jail. He said he had known her at Mrs. J. B. Emerson, who wrote from Randsburg, Cal., asking me to aid an

"My Greatest Asset Is My Name"

Thus declared a manufacturer of a national product. He rakes his fortune in millions and counts his factories in scores of acres.

Yet he declares, were all his assets to be taken from him except his name he would still be a rich man.

HE HAS MADE THAT NAME A HOUSEHOLD WORD BY ADVERTISING AND VIBRANTLY BY NEWSPAPER ADVERTISING. He has believed in co-operative advertising with local dealers and the local dealers have backed him up.

The manufacturer says the only dull time he knows is when he lets up on his co-operative advertising.

HARD CRUST ON BABY'S HEAD

Little Pimples All Over Body. Fretted All the Time. Itched So Could Not Sleep. Used Cuticura Soap and Ointment One Month and He Was Entirely Well.

Priceville, Ore.—"My baby had a hard crust on top of his head. It started by little sores and all over his body he had little pimples. His body was one mass of sores and he fretted all the time. He itched so badly that he could not sleep. I tried so many remedies and they all failed. The trouble had lasted for three months before I used Cuticura Soap and Ointment. As soon as I used them it was only an hour when he felt relief. He went to sleep and slept sound. I only used Cuticura Soap and Ointment one month and he was entirely well." (Signed) Mrs. Alice Racher, Sept. 24, 1912.

FOR PIMPLES AND BLACKHEADS

The following is a most effective and economical treatment. Gently wash the affected parts with Cuticura Ointment, on the end of the finger, but do not rub. Wash off the Cuticura Ointment in five minutes with Cuticura Soap and hot water and continue bathing for some minutes. This treatment is best on rising and retiring. At other times use Cuticura Soap freely for the toilet and bath, to assist in preventing inflammation, irritation and clogging of the pores. Sold throughout the world. Sample of each mailed free, with 22-c. Skin Book. Address post-card "Cuticura, Dept. T, Boston."

*Men who shave and shampoo with Cuticura Soap will find it best for skin and scalp.

IS BROKAW ELLIS OR ANOTHER MAN?

Strange Case of Confused
Identities of Accused
Criminals

SAN FRANCISCO, Sept. 25.—There was small doubt today in the minds of the detective bureau, that Joseph Ellis, the man sought by the police of Pittsburgh, Louisville and Indianapolis for a series of hotel robberies culminating last Monday night in the murder at Indianapolis of Joseph Schiavsky, a second-hand clothes dealer, is now in the city jail here booked as Fred Brokaw. At the same time it seemed to be established that though Ellis and Brokaw are the same person the man sought is not the man wanted in Indianapolis. The murderer bore a remarkable resemblance to Ellis or Brokaw—a likeness so complete and satisfying that a photograph of Brokaw sent out by the Pittsburgh authorities in circular form and which he admits to be his portrait, has been positively identified by a woman who believed she had married him and a man who believed himself to be the murderer's father. The father avouched the woman tried to commit suicide, when shown the circular.

Yet Brokaw was arrested here on the day the Indianapolis murder was committed, and he is able to account for his movements satisfactorily for some time previous to his arrest. The detective bureau is forced to conclude that the case is one of the most remarkable double identities ever brought to their knowledge.

Brokaw denies the charge that he admitted that he deserted from the navy in 1909 and was arrested in Los Angeles, he was asked today, on receipt of a dispatch from Los Angeles telling that the man there in 1909 of the name of Fred Brokaw, to give the date of his arrest. At first he was unwilling. "You give it," he said. "No, you give it," insisted the reporter.

"I think it was November, 1909," he said. "And the charge was obtaining money under false pretenses."

"It was something about money," admitted Brokaw. Yesterday he said he was arrested in Los Angeles as a deserter. Then he was shown the dispatch.

"Why they're crazy!" he exclaimed. "I am not Ellis, I never used that alias and my father is living in Spokane, not Richmond. The only aliases I ever used began with the letter B. If they look up the register of the Hotel California in Los Angeles they'll find that I was registered there under my right name as Brokaw, and the newspaper clippings of that date will give me my right name, too."

Brokaw was arrested here on the street. He was living at one of the most fashionable houses in the city, and contracting bills which he had no money to pay.

MAN WHO CARRIED MESSAGE TO GARCIA

Takes Part In Dedication of
Site for Cuban Pavil-

ion At Fair

SAN FRANCISCO, Sept. 25.—Major Andrew S. Rowan, United States Army, retired, nationally known as the man who carried the message to Garcia, took part today in the dedication of the site on which the Republic of Cuba will erect a pavilion for the Panama Pacific International Exposition in 1915.

Rowan is a close friend of Senator Jose B. Foran, a Cuban special commissioner from Cuba, who took title to the site. Senator Foran and Tamaro was a colonel on Garcia's staff during the war of Cuban liberation.

In his speech of acceptance, the Cuban commissioner spoke, feelingly of the part this nation played in winning independence for the island republic.

In several of the speeches reference was made to the fact that this is the forty-ninth anniversary of the discovery of the Pacific by Balboa.

GIRLS TO BE PUT UNDER RESTRAINT

Probation Committee Ob-

jects to Conduct of Wit-

nesses In Diggs Cases

SACRAMENTO, Sept. 25.—A resolution offered today by two members of the probation committee of the juvenile court which provided for the dismissal of all proceedings against Marjorie Warrington and Lola Norris, participants with F. Drew Ginnett and Mary J. Diggs, in the sensational case known as the "Newly-forgotten" adoption after a spirited debate by a vote of 4 to 3. As a result the girls will be taken before the juvenile court and placed under restriction.

Mrs. W. H. Moreland, wife of Bishop Moreland of the Episcopal diocese, sought the resolution, saying: "Both of these girls are going about the streets shopping and laughing and chatting with friends. Some restraint should be placed on them."

"Please be merciful, give the girls a chance," pleaded Mrs. T. W. Sheehan, who introduced the resolution.

"I am merciful. These girls are no better than others who have been taken before the court and sent to institutions. It is the duty of the court to protect and warn other girls if the probation court had taken up this case in the first place, two more would not have been taken to prison, two wives broken hearted and mother and fathers disgraced," replied Mrs. Moreland.

City Commissioner Carragher said the girls had wrecked homes and deserved punishment.

EIGHT DRIVERS ARE SIGNED FOR BIG AUTO RACE

Big Speed Contest Will Take
Place Saturday At the
District Fair

Harvey Kennedy Enters
Car; Local Man Will Try
for World's Record

Yesterday's mail added one more entry to the list for the big auto race on the closing day of the Fresno District Fair. This was from Harvey Kennedy of San Francisco, who will bring a six cylinder Stinson for that occasion. This car is one of the fastest in the northern states and has made a reputation in the events in which it has been entered while Kennedy, who will pilot his car, is rated as a fearless driver. He was formerly connected with the Huntington and is a resident of the city of San Francisco. His connection with this race is a result of the fact that he was the first to enter the race.

With the speed of "Wild Pete" being from his left, Kennedy is anxious to make the race of San Cooper, Teddy Taylor and Edna W. Brown, and will make the effort of his life to do this when the four of them meet here on Saturday. Kennedy's car is a total of eight, for the race for all cars which is the largest field ever started on a mile dirt track at one time in California. There is a prospect that this race will be run in heats, for the A. A. A. representative has the right to do this. In his opinion, there will be too much danger in starting all of the cars at one time. In this case there will be three races instead of one for the first and second in the fastest heat will qualify to compete against the winner of the slower heat and if this contest assumes this form.

It's A Mistake

Made By Many Fresno Residents.

Many people in a misguided effort to get rid of kidney backache, rely on plaster, liniments and other makeshifts. The right treatment is kidney treatment and a remarkably recommended kidney medicine is Doan's Kidney Pills. Fresno is no exception.

The proof is at your very door. The following is an experience typical of the work of Doan's Kidney Pills in Fresno.

F. E. Smith, railroad switchman, 1043 O st., Fresno, Cal., "I was subject to dull pains in the small of my back caused by weak kidneys. I had reason to believe the trouble resulted from jumping off and on cars. At night I couldn't rest. When I heard of Doan's Kidney Pills, I got a box and they were just what I needed. They acted directly on my kidneys and brought me great relief. I will never have any hesitation in telling what Doan's Kidney Pills have done for me."

Y. M. C. A. SWIMMERS PREPARE FOR AQUATIC MEET TOMORROW NIGHT; DORMITORY BOYS ORGANIZE TONIGHT

Dozens of the crack swimmers of the junior class of the Young Men's Christian Association have been practicing daily for the past week to get into form for the grilling contest scheduled at the plunge of the association tomorrow evening.

Special stunts will be featured in the swimming meet, such as regatta diving, apparently drowned persons, life-saving, rescue, etc. Six of the young men have been working up some special stunts which will not be divulged until the evening of the meet. They are Irving Toomey, Joseph Mcintosh, Matthew Hale, Charles Chapman, Al Rasmussen and Henry Waldron.

The contests will all be under the personal supervision of Physical Director Charles H. Toomey, who will award silver lapel buttons to the successful contestants.

The meet will begin at 7:30. Normal swimming will be held at 7:30. Tonight the dormitory boys of the association will enjoy a chicken dinner at the association, after which they will organize themselves into a club. Election of officers will be held and social programs planned for the coming week. The association who have cleaned up for the dormitory dinner are the following:

J. L. Johnson, W. D. Eastman, Charles A. Goble, Ned McAllister, Harry Clark, Clarence J. Cochrane, A. L. Barnard, Carl Johnson, R. Wells.

It is certain that a world's record will be broken for it will mean a fight for every inch of advantage. Every car in the race is capable of a speed of more than 50 miles per hour and at least Cooper, Taylor and Verbeck have given the 100 mile mark on their speed indicators.

Every effort will be made to put the track in such shape that this will be possible. Secretary Cooper has ordered a quantity of Calumet Chloride which will be placed on the surface of the track to lay the dust and Friday night a 10 ton steam roller will be used to work the surface smooth. It will be the time the cars are started it will be as hard as concrete. Fresno's track is rated as one of the fastest in the United States and with this fastest heat will qualify to compete nationally.

Most of the drivers have arranged to arrive in this city by the second day of the fair and their work of tuning will be finished here.

Cooper, who is scheduled to compete at Bakersfield on Sunday will arrive here on Monday morning and will probably be the first to arrive. Kennedy will reach Fresno on Tuesday and Taylor and Verbeck will reach their monster flat cars on Wednesday.

TABLES ARE TURNED ON COMPLAINANT

Tables were turned on the defendant yesterday when Charles McCarthy, complainant against John Del Carlo, was arrested in Fresno following a preliminary examination at which Del Carlo was held to answer. Both men are now in the county jail. The case against five Italians, charged with assault to commit murder, were dismissed. The Italians and Del Carlo were accused of assaulting McCarthy on one of the Miller & Sons' boats near Firebaugh. After the hearing Del Carlo, the only defendant which the prosecution could identify, swore out a warrant for McCarthy's arrest. Deputy District Attorney Campbell prosecuted the cases.

SANGER CLERK THINKS INJUNCTION HOLDS

Editor Republican:—In a number of your issues of recent dates there has been articles reflecting severely on me in the position I have taken in refusing to certify to the petition presented me recently for an election under the Wylie Local Option law.

I refused to certify to the "Sufficiency" of the petition for reasons that I believe to be good, having a recent precedent to guide me in my findings. Practically the same petition was presented me two years ago and through the advice of the City Attorney the petition was turned down. The petitioners brought mandamus proceedings seeking to compel me to certify to the sufficiency of the petition. This was denied by the judge of the Superior Court and the petitioners not being satisfied carried the case to the Appellate Court and here the finding of the Superior Court Judge were sustained.

The petition now causing such controversy is in no way different from the one to which I was not allowed to certify two years ago by both Superior and Appellate court judges, and to do so in the present petition would be at least foolish if not dishonest, in my opinion it would practically be a contempt of court. The former decision was in the nature of an injunction and I cannot believe otherwise than that it still holds, even though the petition is signed by another set of names than the previous one. The same conditions still hold that caused the previous refusal of prayer of petitioners.

J. B. McLAUGHLIN,
City Clerk City of Sanger.

U. P. OFFICIALS GREET FRIENDS HERE

Several Fresnoans were personally acquainted with the Union Pacific officials who paid Fresno a visit, leaving for San Francisco this morning.

Among these is C. W. Eckerman, who lived in Omaha for a number of years. He called on and had a pleasant chat with J. A. Munroe, vice-president of the Union Pacific, who remarked that he met former Omahans wherever he went. Mr. Munroe is one of the old timers with the Union Pacific, having been with that line for more than twenty years, during which time he worked himself up from a clerk in the freight department to the position of general freight agent. After the death of Mr. Harriman, when A. J. Clegg, then vice-president of the Union Pacific, was made president, with headquarters at Omaha, Mr. Munroe was made vice-president.

Mr. Eckerman renewed acquaintance with George F. Fort, passenger traffic manager of the Union Pacific, whom he has known for several years. Mr. Fort is also a self-made man who has worked his way up from the ranks and is still a young man. He was first a stenographer in the passenger department of the Union Pacific, then its advertising manager in the old days, when E. L. Loumax was general passenger agent. Mr. Fort later went with the New York Central as assistant general passenger agent, and upon the death of George H. Daniels, general passenger agent of the Union Pacific, he succeeded him in that position. At the time Judge Loumax gave up the presidency of the Union Pacific three years ago, Mr. Fort returned to that line as passenger traffic manager, an office just created. Both Mr. Munroe and Mr. Fort were loud in their praise of the Fresno country.

MEXICANS LIE IN WAIT FOR VICTIM

Three Mexicans hid in the yard of Joe Marino early this morning and attempted to rob him when he returned home. Marino shot at the men twice and they shot at him three times. Marino is a bartender in an F street saloon and the officers think the Mexicans saw him leave the saloon, preceded him to his home and lay in wait. The police searched for the robbers but could not find them.

Are You Prepared?

If you step on the scales, you'll be surprised to know how much weight you have lost during the summer which is only an indication that your system needs building up to withstand the rigors of the fast approaching winter. You can and should avoid the dread of cold weather and its many attendant ills by keeping the system strong and vigorous so that it will throw off disease. No other known remedy is so valuable for this purpose as Duffy's Pure Malt Whiskey, for it is one of the greatest strength builders and tonic stimulants known to medicine. It strengthens and fortifies the system against the attacks of disease and dangerous germs and assists in building up the weakened tissues in a gradual, healthy, natural manner. When taken at bedtime, it stimulates the mucous surfaces and little glands of the stomach to a healthy action, thereby improving the digestion and assimilation of the food and giving to the system its full proportion of nourishment. The action on the digestive process is of great importance, as it brings to all the tissues and organs of the body the nutriment necessary to their sustenance and indirectly to the whole system strength and vigor. Duffy's Pure Malt Whiskey is sold by druggists, grocers and dealers, in 50 and 100 cent bottles. Medical booklet and doctor's advice sent free on request to The Duffy Malt Whiskey Co., Rochester, N. Y.

Granger Says Will Build Clovis Line

In spite of the fact that he was suffering with a severe cold, F. S. Granger spent yesterday morning along his proposed route to Clovis and consulted with many of the ranchers along the line. Granger says that he has the support of the people and that his line is almost an assured fact. Granger was confined to his home yesterday afternoon. He will start out again today. Granger expects to ask his supporters to sign their contract in a few days and deposit their bonds in the right of way with the bonus in the First National bank.

TO PREACH SERIES ON MARRIED LIFE

A series of sermons on "Wedlock" will be preached by Rev. H. Oscar Meyer, pastor of the People's Methodist church, beginning next Sunday. The sermons will all be delivered in the big tent being used by the People's church at Belmont and Fresno avenues, at 7:30 p. m.

The "Marriageable Man" will be the subject of the first sermon to be delivered.

No Larger Assemblage Than This In The San Joaquin Valley!

No Lower Prices For Equal Qualities Anywhere!

This immense gathering of fashionable apparel excels in many ways any similar collection in the entire valley. It contains the widest varieties to choose from, offering a range of choice that is almost unlimited. And although this is a women's specialty shop, prices are lower than are asked in any other store where style and quality are first considerations. And we make no exceptions, not even the stores of New York or Chicago.

LOCKING STABLE DOOR

The New York Republican convention has taken one more step in locking the stable door after the horse is stolen. The convention confessed that the final break-up of the Republican party last year was produced by the stealing of two California delegates, and it now proposes that the Republican party shall pass a new rule by which it agrees not to do that particular sort of stealing again.

The stamped to surrender on the part of the Old Guard is really something startling. The one thing which is lacking so far is the mental capacity to comprehend what the trouble is all about. For instance, a few days ago, the Chicago Record-Herald uncovered a leak in the inner councils and let out the story that Burnes, Parsons and others were seriously plotting to give the next Republican nomination for President to Theodore Roosevelt. Since the break in the party came over the question of stealing the nomination from Roosevelt, these simple-minded persons naively conclude that all the Progressives wanted was Roosevelt. Now comes the New York convention and with equal naivete assumes that because the immediate split was over the California delegates and the Southern representation, these were the things the Progressives wanted. Even during the convention, because the Progressives seemed to be so earnest for the platform, these very men were willing to give the Progressives almost any sort of platform. Boss Barnes of New York and Nicholas Murray Butler, together with Senator Sutherland of Utah were three of the nine members of the sub-committee on platform of the Republican convention. Elihu Root was chairman of that convention. When Elihu Root, with the world looking in on him, at the vital crisis in the life of his party, deliberately did what he now proposes to undo as wrong, and did it for the sole purpose of demonstrating that the national committee and not the voters of the Republican party, were in command, he took that action once for all. No compromise presented with his sponsorship will ever be accepted as made in good faith. There can be no agreement on a compromise not offered in good faith, made by persons who have demonstrated that they are not capable of good faith.

They thought that the trouble was over the platform and try to settle it by yielding so far as possible on the platform. It is a peculiar mental obsession on the part of all of them that they could not then understand and do not now understand that the trouble was not over either candidate, rules, or platform, but was over the question of government by the people, in the party, as well as in the states and nation.

The question whether the Republican organization on a direct issue between the people and the machine, could not be made responsive to the people was put to its final test then and there, and under the chairmanship of Elihu Root, chairman of this week's New York convention, and when, under the strategic guidance of the very persons who now propose these compromises it was demonstrated that the Republican organization could and would defeat the known and expressed will of the Republican party, that test was final.

FLORIDA RACE LINES

It is reported that Japanese promoters are arranging to send large numbers of Japanese colonists to Florida, where there is no objection to their land ownership, and where there is much land now used only for ordinary cheap farming, which could be made extremely profitable under the intensive cultivation of the Japanese.

If Japanese colonists think that they can find profitable investments in Florida, there is, of course, no reason why they should not seek those investments, and we will wish them all prosperity in the undertaking. But if they go to Florida with any idea of getting there those personal rights and considerations for which they have contended so much in California, they will be doomed to bitter disappointment. In California, except for voting and land owning, the Japanese has theoretically all the rights of a white man, and practically he gets a considerable share of those rights. Socially a Japanese gentleman will be received into American homes on terms of equality. In the ordinary relations of life Japanese are treated with respect and courtesy. Or if they fall in some instances of receiving that treatment, it is from classes of Americans who do not practice respect and courtesy among themselves and do not know the art. Conditions in California are not ideal from the Japanese point of view, but they are at least not intolerable, and the race line is not drawn against them in such a form as to be too offensive for at least considerate understanding.

All of this will be impossible in Florida. The white people of Florida have a very definite stand on the race question, and they have learned their standards by contact with the negroes, whom they treat as an inferior race. There is nowhere in the world where the distinction between a white man and all other men is more absolute and more offensive than in Florida. The white man in Florida knows only two ways to treat men: in one manner he treats all white men, and in another

other manner he treats all men not white. And this manner is one adapted to the treatment of the negro in the status which the white man desires the negro to occupy. In California the Japanese is treated as a member of a different, but an equal race. This is, at least, the theory, and it is carried out to a reasonable extent in practice. In Florida he will be lumped with the negro into a separate and inferior race, and the caste separation will be imposed on him with the same ruthless inconsideration with which it is imposed on the negro.

If the Japanese do not desire to be treated as an inferior race they must stay out of those parts of the United States in which the negro problem has spread among the white people the delusion that all races but their own are inferior. Actually, of course, the cases have no analogy whatever. The Japanese represent a highly civilized race unconditionally equal to the white race. The negroes represent a race which in its own country has never emerged from savagery, and which in this country has only such civilization as it has acquired against great odds from the white race. Individual negroes may have risen to personal equality in intelligence, character, and culture with the best of the white race, but these are the first to concede that this is not the status of their race. The whole organization of American society in the Southern states is based upon the absolute inferiority, natural or enforced, of the negro race. To impose such a status on the Japanese race is plainly an injustice, but exactly this injustice will be imposed on any Japanese who go to Florida. If they are willing, for the sake of profitable investment and of equal rights to purchase land, to pay this price of sharing in the social stigma of another and inferior race, thus in, of course, their privilege. But Japanese who go to Florida should be squarely warned that they must leave their race pride behind them in California, where in spite of some untoward instances, it is still generally understood and respected.

STILL CHAMPING

According to the Examiner, M. F. Tarpey did it all at Washington. According to the Chronicle, Theodore Bell did it all. In order to be in on the game, the Republican hereby asserts that J. C. Needham did it all. But the fact is, of course, that all of them have worked manfully together in the protection of the California wine interests, and that there is probably among them none of the petty jealousy which actuates some of their would-be newspaper exploiters in California. The people of California will be thankful to them all, and will have enough respect for them to assume that the motive of them all was a real public service.

Senator Pomerene, by the way, is still champing around, and is very angry at President Wilson for not interfering in his behalf to undo the work of the conference committee in striking out the wine schedule. Senator Pomerene insists that the present law is unfairly discriminatory to California, because it requires the tax-free distillery for brandy to be connected with a vineyard. Half a dozen vines around a distillery, in California, he says, will be sufficient to comply with this law. But it is physically impossible to do this with the distilleries in the East.

Senator Pomerene is right about the physical impossibility, but not in the reasons for it. If a half dozen vines around a distillery constitute a vineyard in California, a half dozen vines in the back yard of a distillery would constitute a vineyard in Ohio. The physical impossibility in Ohio is not in locating the distillery next to a vineyard, but in making brandy out of the grapes grown in that or any other vineyard. It is a physical impossibility to make brandy out of Ohio grapes. Even if Ohio dry wines were distilled, the product would be, not brandy, but rum. The alcohol in the dry wine was produced, not from the grapes, but from the cane sugar added to the grape juice. Alcohol distilled from fermented cane sugar is not brandy, but rum.

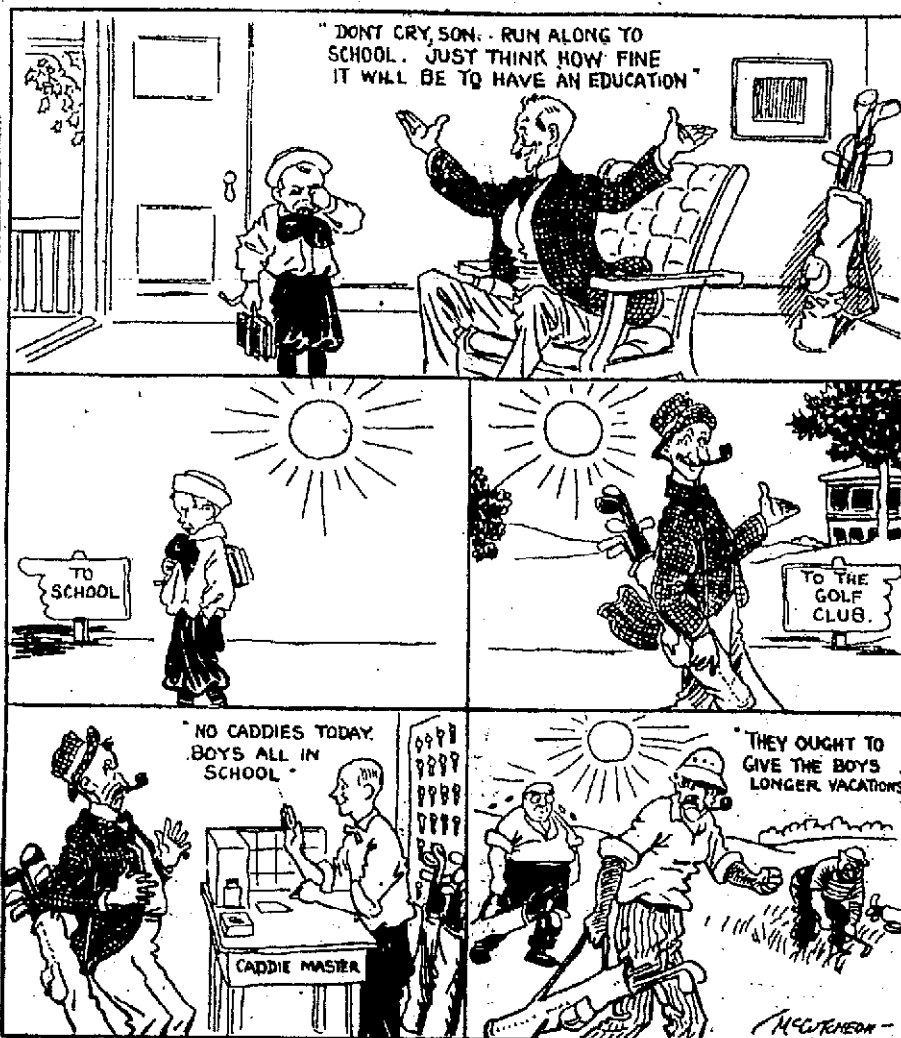

If the Ohio wine growers really wished to equalize conditions they would advocate a law permitting the fortification of all sweet wines with tax-free brandy and with no other form of spirits, and would permit that brandy to be made in any distillery equipped in such a manner as to make inspection possible and to be shipped to the wine makers in sealed casks under bond. The limitation should, of course, be that "brandy" should be defined as the distilled product of fermented grape juice, and nothing else. If this were done (and we suspect it could be done under the present law) the Ohio wine growers would have to import all their fortifying spirits from California, for the simple reason that the only grapes raised in the United States out of which it is physically possible to make brandy grow in California alone.

The whole state is congratulating San Francisco on the final closing of the Barbary Coast, and even San Francisco, once the thing is done, seems to be proud and relieved that it has at last had the courage to discover that this pest-hole was a disgrace instead of a credit to the city. San Francisco is merely going tardily through that stage which has been one step in the development of all the California cities. Fresno went through the same stage many years ago, and there are few cities left in California which have not already gone much farther than San Francisco. It is a step which, once taken, will never be retraced, and in a few years San Francisco will wonder that the conditions recently so familiar had ever been tolerated at all.

The WORLD'S MYSTERIES

MYSTERIES OF CRIME
WAS JOHN LAW GAMBLER OR SCAPEGOAT?

John Law, in whose history attaches the inception of the Mississippi Scheme, one of the most gigantic of all the world's swindles, was either one of the greatest gamblers of history, or he was a clever man who was used by those in authority to bolster up the finances of a ruined nation. Whichever he was, no man was ever able to work a scheme of fraud as did John Law, and while he swindled a mighty public out of millions of dollars, yet with all his cleverness he was unable to profit by it, and eventually became a wanderer and died in Venice in 1729 in the midst of distressing poverty.

During the height of his Mississippi Scheme, fortune favored him to the extent that he was elected general controller of the public finances of France, an honorary member of the Academy of Sciences, and Edinburgh sent him the freedom of that city. George II helped along his scheme by personally dabbling in stock, and out of some of the revenue that was handed to him he purchased sixteen large estates, paying for them 7,000,000 livres. As an example of how the money came in, Law's cashier sent 40,000,000 livres to other countries and then defaulted for the amount.

John Law was born in Edinburgh in 1671. When his father died he went to London and became a gambler.

When his friend, the Duke of Orleans, became regent of France in 1715, the national debt of the country amounted to 3,111,000,000 livres, and it was on the verge of ruin. It was at this crisis that Law came forward, offered to save it with his scheme of paper money. This was the start of his efforts at "Financial Finance," for which he entirely receives the blame of the historian, but it is very evident that the regent and others high in power, if not directly implicated, at least gave their official sanction to the Scotchman in order to save themselves.

His scheme of issuing paper money worked sufficiently well that it was an easy matter for him to start two years later, in 1717, his Mississippi Scheme, a company for the purchasing of the stock that would control the tract of land on the American continent through which the Mississippi flowed, this being then French property.

Shares in this stock first sold for 125. It was only a very short time before the price rose to 250 and then jumped to 1250, and in November, 1719, to 2500. The people became delirious in their desire for wealth and the stock-jobbers were almost mobbed by crowds that were riotous in their clamoring. Every manner of man and woman were taking up the mad race for wealth. Law's house was swarmed from morning to night by eager applicants. He moved to the Hotel Vendôme, where a still greater throng followed him. He fled to the Hotel Solais, thinking to escape, in its garden of several acres, the confusion of matters were only made worse and soon more than 5000 people were there, all of them filled with the money-maddened seekers of his Mississippi stock.

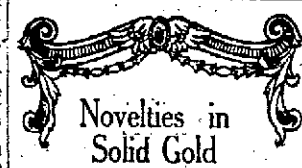

In the meantime prosperity everywhere smiled. Everybody seemed to be on the highway of fortune. The great Mississippi bubble was now full blown. France was announcing

itself as proud in giving birth to such a genius as Law. Suddenly some people began to have suspicions and started to sell out, changing the paper to gold and silver. The Prince de Conti, having been offered by some transaction with Law, demanded material for his paper and it took three wagonloads to carry the money from the bank to his house.

Even the Regent, who had set his stamp of approval on the scheme, became alarmed and tried to stop the outflow of specie by issuing edicts of warning; that the notes were safer than the specie, and lastly, in desperation, he forbade that any one should have more than 500 livres in his possession!

But the big bubble had expanded until the outside pressure made it

DIRECTORS TO FILE DATA TODAY WITH COMMISSIONERS

Will Make Complete Report On Indebtedness of Selma Electric

New Management Has Complied With All Demands of R. R. Commission

Directors of the Fresno-Hanford & Summit Lake Railway Company left Fresno late yesterday afternoon for San Francisco and will today appear before the board of railroad commissioners and file their completed data on the preferred stock, which they have been issuing here to take over the debts of the company. When the commissioners gave their order for the building of the first unit of the interurban one of the provisions was that the common stock be gathered and held in one place and not sold. Another was that the present indebtedness be taken over by the issuing of preferred stock. These provisions have been complied with under the new management of the line and the report, which will be filed today, will give the amount of the debts in round figures. Practically all of the creditors have been signed up and the few holding out will not stop the progress of the road.

The previous bond issue of the company called for a bond issue of \$1,250,000 at 5 per cent, while the bond issues under the present management call for an issue of \$350,000 at 7 per cent. The new management feels that the bonds under these conditions will be much more valuable.

W. D. Mitchell and John Somers, directors of the line, will appear before the commissioners today and attorneys H. P. Brown and O. L. Everts will also be present as the lawyers for the road.

A meeting of the directors of the road was held yesterday at which time the work was finally completed so that the directors could appear before the commissioners.

The annual meeting of the directors of the road is scheduled for today, but will be continued until the return of the men from San Francisco. L. H. Jones, the new manager of the line, is now in San Francisco.

SELMA STORES TO CLOSE FOR FAIR

Big Auto Parade Will Bring Selma People Here Next Wednesday

At a meeting of the Selma merchants yesterday morning it was decided to close the stores Wednesday, Selma day at the Fresno District Fair in order that merchants and the clerks could attend the fair. Not only did the Selma merchants decide to close their places of business and move to Fresno for the afternoon and night, but plans for a monster auto parade were made. It was decided to have a very Selma anton on hand Wednesday morning at 10 o'clock as they will drive to this city, parade through the streets and then on to the fair grounds. Selma wants to give Fresno an idea of what a thriving and bustling little city she has grown into. Selma boasts of having more automobiles in accordance with the population than any section in the state and plans to live up to the precedence.

ALEXANDER BIER IS HELD FOR ASSAULT

Following a preliminary examination before City Justice Graham yesterday morning, Alexander Bier was held to answer to the Superior Court on a charge of assault with a deadly weapon. Bail in the sum of \$1,500 was allowed to stand. George Schweigel was the complaining witness. According to the evidence brought out yesterday morning the trouble started after the raffling of an accordion, which was won by a youth. Schweigel purchased the accordion from the lad for \$5 and one dollar of the money was donated for beer. Trips were made to the homes of different Russians during the evening, and at the home of John Pries, Bier and Schweigel engaged in argument and Bier is alleged to have struck the complainant in the head with a leaden ball.

AGED MAN FACES BURGLARY CHARGES

Dennis Costello, aged 70 years, was arraigned before Police Judge Briggs yesterday on a charge of burglary. He was returned to jail in default of \$500 bail and preliminary examination will be held later. F. G. Palumbo of 324 J street and Louis Kenner of 310 J street are the complainants. A. A. Morley, thought to be Costello's accomplice in the two burglaries, was also in court and returned to jail in default of bail.

SAYS TAKES PRIDE IN BREAKING LAW AND BEATING GAME

Probation Officer Charges Up Chunk of Penal Code Against Him

James Manning, who pleaded guilty to the charge of embezzlement, will never be purged if the report on his appeal for release on probation made by County Officer Sessions has the slightest effect on the court. The report reads: "Manning's police record is a long and an unenviable one. He is a very plausible, slippery character and takes pride in committing some offense and escaping the legal consequences. According to the information given to the probation officer, his offenses include: "Various degrees of larceny. "Breach of trust. "Wife desertion. "Obtaining money under false pretenses. "False swearing. "Enlistment in army under false name. "Adultery. "Jail breaking. "I recommend that the application for probation be denied." Besides the embezzlement charge, Manning awaits prosecution for his recent attempt at jail breaking. The embezzlement charge covers his making away with a \$175 piano which on July 1, 1912, was in his possession as the buyer of the Zehner Piano Company.

WILL PROSECUTE JAIL BREAKERS

District Attorney McCormick and Sheriff McSwain stated yesterday that J. D. Wheeler and James Manning will be prosecuted immediately for jail breaking. Their cases will likely not be taken up in the courts until next week as at the present time there are many important cases on the docket. Workmen yesterday repaired the iron slats in the cells.

ANNUAL MEETING OF UNIVERSITY CLUB

The final dinner of the current official year of the University Club of Fresno will be held next Monday evening at the club house on K street. The hour has been set for 6:30. At 8 o'clock will be held the business meeting for the nomination of officers for the ensuing year, and other matters of general interest to the club will be brought up.

MANY COMING TO ELKS' CELEBRATION

Valley Lodges Begin to Respond to Invitations; At Least 500 Expected

A report from Merced that eighty-five Elks are planning to leave for the business meeting in this city Saturday night and the big high jinks at the river Sunday, received by chairman Arthur McFarle of the entertainment committee yesterday, is but a forerunner of the many celebrations which will open up upon the local Elks from now on as the valley lodges decide to join in the celebrations here.

Fully five hundred Elks of the lodge from Stockton to Bakersfield will go to River View Park Sunday for the big barbecue and high jinks. The evening previous, the proposition of a united San Joaquin valley to host for a state organization of the L. P. O. E. The number of autos secured to meet the train and to later transport the visitors and local Elks out to the river is hearing the century mark and it is expected that all will be crowded.

Shortly after 8 o'clock Saturday evening the Elks will hold a business meeting in the club house. At present there are no state organizations. Elks meeting at grand lodges from the individual lodges all over the country. It is believed that state representatives, being fewer in number, will favor the lodge work and it has therefore been planned by Fresno lodge to endeavor, if possible, to get the San Joaquin valley lodges to unite to fight for a California state L. P. O. E. at a mass meeting to be held in San Francisco, on October 25th. Should a state lodge not meet with general favor the valley lodges would probably form an organization of their own for purely social purposes.

Following the disposal of the business a snicker is to be held in the lodge rooms and a late lunch.

Sunday morning at 9 o'clock sharp the automobiles will leave for River View. A scenic route will be taken, giving the visitors a view of the resources lying about Fresno. Once at the river affairs of the business world will be forgotten in the jinks and barbecue. The Elks will return in the evening.

Louis Delay of the transportation committee last night announced the appointment of the following chairmen and committees for purposes of the day: L. P. O. E. chairmen: G. E. Burwell, refreshments: Judge H. H. Holland, somnambulists: Dr. Geo. Bland, hospital: Dr. Thos. Sample, nurses: J. A. Vennard, decorations: Dave Ewing, sermons: Roy Pulliam, charity, bow; and L. A. Klein, et al.

30 OUT OF 49 PASS ORDEAL TO BECOME CITIZENS

One Man Found Who Could Not Name President Or Governor

Another Not Up On Constitution Because He Read An Old One

Quarterly naturalization hearing day yesterday had its humorous as well as its serious aspects. Out of the list of 49 applicants for final papers, 30 passed the ordeal and before the afternoon was spent had sworn allegiance to an assorted lot of foreign sovereigns, princes and potentates and had become plain adopted sons of Uncle Sam.

John Tapp of Kingsburg, a subject of George V., King of Great Britain, Scotland and Ireland, was among the number that was turned down and advised to go and read up the latest American constitution and other genuine literature.

Tapp was not up on his catechism and U. S. Naturalization Examiner Frederick Jones hinted broadly that he was not very familiar with the U. S. constitution.

"I have read it several times," remarked Tapp in an apologetic innocence, "but it was a very old one that I had."

The laugh was on Tapp, who had not been all attention at the class examination, because one of the questions answered only shortly before was that this constitution was as ancient as Sept. 17, 1787, so that if the applicant had read an earlier one his familiarity with American constitutions was unique.

Turned down by Judge Austin and sent back to Olander still a subject of the Czar of Russia was Fred Reiko. He knew there was a President of the United States, but his memory was so treacherous he couldn't recall the gentleman's name. Sure there was a governor of the state of California, but he couldn't remember the name, but he had also escaped him.

Twenty-four aliens passed the ordeal in the forenoon before Judge Austin with the following results:

Passed 24
Continued 7
Dismissed 1

Total 32
The man dismissed was Baghdasarian, a subject of the Czar of Russia, but whose witnesses could not qualify by knowledge of his continuous residence. Reiko was classed among the cases continued in the hope that he may gather some current knowledge when next he faces the ordeal. The 18 that passed were the following named:

Christian J. Aggergaard, Big Creek; Armenag Bedrosian, R. S. Box 22L; Geo. Harpoonian, R. S. Box 109; Arshag Shishmanian, 539 K; B. A. Losell, Selma; John Slavich, 369 N; M. P. Madison, Farler; D. F. Dundas, Sanger; K. B. Dunsenur, Coalinga; Ohanes Harootian, R. S. Box 74C; M. S. Feosheyan, 1331 Q; Benjamin Harlan, 1527 K; W. K. Vance, 2011 Mariposa; Sydney Gardner, Clovis; P. R. Peterson, Bowler; and Eli Makovich, Reedley.

Judge E. N. Rector of Merced occupied the bench for Judge Cullen and before him there passed 25 in review with the following result:

Passed 14
Continued 10
Dismissed 1

Total 25
Of the ten continued seven did not make appearance and three failed to make for lack of knowledge. The admitted-to-citizenship were the following named:

Christian Muller, R. S. Peter Jensen, Selma; A. G. Johanson, Kingsburg; Y. B. Guthrie, R. S. Box 123; Anna Anderson, Selma; D. B. Trappanich, R. S. Box 222B; Theodore Coldehoff, R. S. Box 29; A. P. Cardozo, R. S. Box 45; F. L. Mohrer, Kingsburg; B. J. Benson, R. S. Box 219A; Y. B. Hart, 2313 Stanislaus; Heenrich Helmut, Sanger; Timothy Dixon, 609 Orchard; and John Sabovich, Reedley.

Axel Gunnard Johanson incidentally had his name changed to Gunnard Axel Jacobson.

Naturalization Examiner Jones quizzed the applicants as a class for the first time here, and this method recently tried on in Los Angeles proved a success in expediting the hearing, being a great improvement over the old method of calling an applicant to the witness chair to be examined singly, the waiting ones, if attentive and observant, receiving the benefit of the correct answers in the long course of individual examinations. In the class quizzing method, the question is asked around and all know over the answers. A question is not propounded more than once as it is with successive individual examination, and the questions cover a greater scope and field.

One question that bothered many yesterday was the one, "What is the underlying principle of a Republican form of government?" Four or five failed and then some one answered, "a government by the people." To clinch the point Mr. Jones asked next, "What are the three first words in the American constitution?" Half a dozen acknowledged ignorance and then a danger little Englishman enlightened all with the answer, "we the people," and the lesson was brought home that in America the people rule.

What subjects the 16th and 17th amendments the federal constitution were questions that puzzled many. The 17th amendment brought up by a question how in the future U. S. Senators will be elected.

Danish and Swedish applicants were uniformly the most enlightened and ready with correct answers.

NEW BUNGALOW IS DESTROYED BY FIRE

A new bungalow owned by Felix Paladino of 1019 Major street was burned to the ground yesterday afternoon. The loss is estimated at \$2,500 and the fire originated from a defective flue. The house was almost destroyed before the arrival of the fire department, owing to the long distance from the nearest engine house.

The fire department was yesterday morning at 10 o'clock called to the home of Henry Antonson of 114 N street, where a blaze had been started in a clothes closet by children playing with matches. The damage will amount to about \$25.

PLAZA THEATER WILL OPEN AT 7:45 P. M.

J. Aldrich Libby in 'big act' at Plaza

Because the evenings are getting longer and people are ready to go out in search of entertainment and amusement so much earlier in the evening, the hour for opening the show at the Plaza has been set up in 7:45 instead of at 8 o'clock, as has been the rule throughout the summer.

The new bill that runs for the balance of the week at the Plaza is one of the best that has been given. While it is not too heavy with big features, it is a good, enjoyable bill all the way through. Every act is a good one, so that the entire bill is one to be appreciated.

Armon & Armon have a musical act with novelty instruments as the big feature. It is more than merely a novelty act, however, as these people are real musicians with plenty of talent and their playing is a feast of melody that can be enjoyed by all.

Gane & Taylor are exponents of burlesque and they have all the skill that the difficult stunt requires. People just look at this work that it is easy, that it takes little skill, and that the main thing is to hit the big a good wallop. But just one trial will disclose the fallacy of this notion. It takes months of practice to attain the skill that Gane & Taylor are so completely masters of.

The funniest thing of all is the travesty skill "Buffalo Bill and the Lady." It is burlesque, with all of the comedy that can be acted for and all of the humor that anyone can want. Burlesque is only funny when it is not overdone, this being the error that so many make. But Libby & Taylor have avoided this. They know just how far to go to make it funny and they are marvelously successful.

Newspaper men frequently break into the vaudeville game. There's a couple of them this time on the new bill. Briggs & Pollock are from Chicago, where they are connected with some of the biggest dailies in the world. They are on a vacation now, seeing the country through the medium of vaudeville. Cartoon work is their feature and they have the talent to make it good. They are also singers and the songs they sing add greatly to the enjoyment of their work.

Rube Jones is also a singer with one of the sweetest voices that ever charmed lovers of vaudeville. He is billed as an "entertainer de luxe," and

he certainly makes good with his efforts to please. The pictures are more than ordinarily good this time too.

SCREAMING COMEDY AT FRESNO PHOTO THEATER

Families Quarrel Over Chickens and Have Big Warfare

One of the best comedies that the Vitaphone Company has put out for a long time will be seen at the Fresno Photo Theater today and tomorrow, Saturday. It is a two-reel subject and the title is 'The Fowlst.' and it is chock full of laughter from beginning to end. Two families get into a quarrel over chickens and the scoldings they scratch up. A spite fence is built up between their respective yards and a feud is started that keeps every one at the highest pitch of excitement. The only members of the families that do not help on the warfare are the eldest son of one of the families and the eldest daughter of the other. These two young people are hopelessly in love with each other, and have many stolen kisses over the top of the fence. A small incident causes the warfare to be suddenly redoubled and a free-for-all fight follows between the families. By knocking over the beehives the young man is able to drive both families to take refuge in the barn, where he locks 'em up. He then demands permission to marry the girl he loves and refuses to deliver anyone from bondage until he shall get it, which he does. The two families issue from the barn the best of friends and hasten to tear down the spite fence and renew their former friendly relations with each other. This great comedy is an all-star cast which includes John Dandy, Flora Finch, Lillian Walker and Kenneth Casey.

THE GREEN VASE
This picture is a very classical production and is the story of a very poor sculptor named Giulio who is very much in love with a case that he sees in an antique art store, as it has the model of a very beautiful woman on it. One day he takes one of his own little statues that he has spent many hours of labor on to the art dealer. On his way he stops to gaze with longing eyes on his favorite vase and by accident knocks it over and it is smashed into a thousand pieces. The dealer is very angry and takes his statue away from him to partly repay him for the loss of the vase. The only piece of the vase that was not broken was the face of the woman that the poor sculptor was in love with. He takes this home with him and gazes on it longingly and falls into a deep reverie, and it seems to him that he is living in the first spring time of the world when nymphs and satyrs danced in every field and grove. He saw the woman of the vase in the midst of a throng of laughing dancing nymphs.

The dream was the turning point of Giulio's fortune, for he awoke to find a letter from the art dealer telling him that his statue was worth many times the value of the broken Green vase. What makes this picture of particular interest is that the Gertrude Hoffman Company of dancers were engaged to give a classical interpretation of the scenes of Giulio's vision in this picture. This production is certainly a masterpiece of the Edison Company.

TWO BIOGRAPH COMEDIES
Among Club Fellows is a picture that you will get lots of fun out of. Algonquin-Worthington believes himself to be a great heart-breaker. His conceit leads him to believe that all the girls, poor souls, cannot resist him. He fancies that every young lady in the town is in love with him. The boys at the club get disgusted with him and resolve to teach him a lesson, and although he is put wise to their scheme he meets his Waterloo.

EDWIN'S BADGE OF HONOR
Edwin by some mischance of fate is a convict. One of his gang-mates wins the white badge of honor by a deed of heroism. The desire to win one of these badges of honor so obsessed Edwin that he even neglected the chance to escape in favor of this gratification.

PATHE SCENIC
A very interesting picture and one of the most beautiful in this week's offering of the Pathe Company, and one that will be enjoyed by all of those who love the beautiful, **NATURAL HISTORY**

The story is shown in this picture building its home on the banks of the river, also all of its various traits and mannerisms. This picture is out of the ordinary for it is all hand-colored.

California Oil News

RETURNS FROM TRIP TO PERUVIAN FIELD Midway Driller Tells of Experiences There and of British Snobbery

TAFT, Sept. 25.—William Cannon returned yesterday, after an absence of six months in the Peruvian oil fields. In spite of the different reports that he had succumbed to the tropical heat, the fever, accidents, Peruvian heat, he returned in a day coach instead of the baggage car.

He spoke well of the general conditions of labor. The camps are quite as good as the average in the states. The work is no harder. The climate is much more agreeable, he said. Drillers receive salaries of about \$150 per month. There are only a few American drillers and they are becoming scarce as the natives are rapidly learning the business.

The snobbery of the British owners and subalterns goes very much against the grain with the democratic American. There is not the spirit of comradeship between the bosses and the workmen that exists in American fields. Social lines are too well defined to suit the Yankee, as all Americans are termed abroad.

Cannon was in the employ of the La Bittos Oil Company, Limited, which operates near La Bittos, Peru. The concern is largely owned by British capital. There are only two other companies operating in that field. There is little wildcatting going on, but a large territory is proved up.

The oil is all of very high quality and wells of 500 barrels daily production are common. The drilling, Cannon said, is the best he has ever seen. The wells vary in depth very much, as in the Midway and Sunset fields. Practically all of the oil is shipped to San Francisco for refining.

Cannon tells many interesting stories of his experiences in Peru and the voyages to and from there.

LARGE OIL COMPANIES FAVOR STATE PIPE LINE STATUTE

Sinister Purpose Is Disclosed In Suit Before Railroad Commission

Oil Trust Wants to Use Facilities of Independents To Market Its Oil

SAN FRANCISCO, Sept. 25.—Proceedings before the State Railroad Commission in the hearing being held under the new pipeline law, to determine the status of pipe lines as common carriers, reveal the hand that the Standard and other big companies are playing in a fight for life of the oil trust, according to the view of well-informed oil men, and that the Standard is making an even more stubborn fight against the independents in an effort to compel the opening of their pipe lines to the Standard so that it may dispose of its 25,000,000 barrels of oil now held in storage at a common instead of a purely local market.

FIVE BIG PIPE LINES.
The oil situation in the state is sized up in this way by local oil men: The Standard Oil has a line running to Richmond, where it has a fleet of vessels carrying the British flag on all but coastwise trade. Richmond is considered a local instead of a common market for the product. The Associated Oil has a line running to Port Costa, together with another fleet of vessels.

Union Oil has a line running to Oxnard, whence it transports its market product.

The Standard Oil has 25,000,000 barrels of oil stored at Richmond and vicinity.

ABANDONED WELL TO BE DRILLED DEEPER

Hazleton Crude to Develop No. 1 Well Stopped Two Years Ago In Sunset

MARICOPA, Sept. 25.—Work on re-opening of the water in the old No. 1 well of the Hazleton Crude Oil Company, on section 17, 11-24, is being started under the direction of J. W. Kelly, one of the principal stockholders in the property. The lease has been shut down for over two years and was under the supervision of Steve Kelly when the well was drilled. Work was abandoned when the hole was down 1700 feet and encountered a strong stream of flowing water. Before the water was struck a fine oil sand was exposed through in the neighborhood of 1500 feet and it is now the intention of the owners to connect off the water in the bottom of the well and bridge the hole back to the oil sand and test it out and see what the sand will produce.

The property is located in the section that has always been bothered by water and although oil in paying quantities can be found almost anywhere most of the leases in the immediate vicinity have been closed down for two or more years. If the company handles the water properly it successfully it is probable that other leases will be opened and a general movement started for the fluid in that section.

The independent producers' transportation agency, controlled by Union Oil, has a line running to Los Angeles, a common market.

The General Pipe Line Company, controlled financially by General Petroleum, has another line running to Los Angeles, a common market.

General Petroleum and Union Oil are considered the biggest competitors of Standard Oil, except possibly, the Royal Dutch Shell interests.

The Standard Oil can depend on its own vessels at Richmond to handle its product, but were the independent ship oil to Richmond through the Standard's pipe lines they would encounter difficulty in finding transportation facilities.

On the other hand, had the Standard Oil facilities offered through the independent pipe lines at a common market, their storage capacity might not be taxed as at present.

Consequently, say oil men, the Standard was the only pipe line company to consent to being subjected to the jurisdiction of the commission and to having its pipe lines declared common carriers.

As far as the Standard's lines are concerned, say the oil men, the big corporation had nothing to fear. But if it could bring about the enforcement of the act and have the independent lines defined as common carriers, it could so clog the independent's pipe lines with oil as to make it almost prohibitive for the independents to get rid of their own products, and this simply by flooding the independent's lines with Standard Oil products and paying the nominal fee prescribed for the usage.

TO CHOKE OFF INDEPENDENTS.
In other words, say oil men, the Standard well have the expense of constructing its own pipe lines to the south or to San Francisco—a common market—and take advantage of the independent's lines and at the same time by its own enormous production choke off the independents in little time.

The commission is not likely to settle the matter until the Associated Oil's appeal to the Federal Courts testing the constitutionality of the act is determined. In the meantime the Standard is fighting Associated, Union and General Petroleum on general competitive principles.

GENERAL PETROLEUM HAS WATER TROUBLE

Has Cemented Well Three Times In Sunset Field; To Try Chemicals

TAFT, Sept. 25.—The General Petroleum Company is putting forth every effort to shut off the water in the No. 7 well on the Essex division, on section 6, 11-23, in the Sunset field. The well has been cemented three times but because of the chemical action of the water in the well upon the cement at no time did it hold enough to keep off the water.

Because of the success of the use of chemicals by Huber and Wilson in the making of cement set under all conditions, the idea was turned over to them yesterday with instructions to shut off the water with the understanding that should the water fail to be shut off and the hole fail to be dry when bailed there would be no pay.

Joe Wilson did the cementing, he finishing up the morning after putting in four tons of cement. Chemicals were first used that the water might be cleared, after which the cement was mixed with the proper chemicals that it might set at once before any action of the water might disintegrate it.

Because of this being considered one of the jobs which the field because of its being many times cemented and the almost impossible task of shutting off the water, the hole is being watched closely by all operators in the immediate neighborhood.

MAKE CONTRACT CEMENT OFF WATER

TAFT, Sept. 25.—The Maricopa National Petroleum Company, on section 6, 11-23, has contracted with the Perkins Cementing Company to shut off water in the No. 4 well. The casing is to be lined in the next few days.

“Blue” Feeling

When you feel discouraged and all the world seems to be against you—that's your system's way of telegraphing you that something is **WRONG** and needs **HELP**.

It may be that your liver is tired and refuses to work, or your digestive organs have had too much to do and need care. Perhaps you have been eating the wrong kind of food, and your blood is too rich or impoverished. **What you need is a tonic.**

Dr. Pierce's Golden Medical Discovery will give the required aid. Tones the entire system. The weak stomach is made strong. The liver vibrates with new life. The blood is cleansed of all impurities and carries renewed health to every vein and nerve and muscle and organ of the body. No more attacks of the “blue.” Life becomes worth while again, and hope takes place of despair.

Insist on getting Dr. Pierce's Golden Medical Discovery. Sold by dealers in medicines.

OLD FOLKS FIND CROXONE RELIEVES ALL KIDNEY AND BLADDER MISERIES

Drives Rheumatic Pains Away,
Few Doses Relieve Backache
and Bladder Disorders

Sleep disturbing bladder weaknesses, backache, rheumatism, and many other kindred ailments which so commonly come with declining years, need no longer be a source of grief and misery to those who are past the middle age of life.

Croxone relieves all such disorders because it reaches the very cause of the trouble. It soaks right into the kidneys, through the walls and linings; cleans out the little filtering glands and cells and gives the kidneys new strength to do their work properly. It neutralizes and dissolves the poisonous

uric acid substances that lodge in the joints and muscles, causing rheumatism; and makes the kidneys filter and sift out the poisonous waste matter from the blood and drive it out of the system.

It matters not how old you are or how long you have suffered. Croxone is so prepared that it is practically impossible to take it without results. There is nothing else like it. It starts to work immediately and more than a few doses are seldom required to relieve even the most chronic, obstinate case.

An original package costs but a trifle and all druggists are authorized to return the purchase price if Croxone should fail in a single case.

STANDARD OIL RUNS INCREASE IN AUGUST

Total of 319,285 Barrels Is Shown More Than for Month of July

TAFT, Sept. 25.—Runs and shipments of the Standard Oil Company for the month of August show a surplus of 304,942 barrels, brought about to a great extent by the No. 10 well of the Standard on the Midway section 36, 21-23. The report shows 319,285 barrels more than was shown in July. Runs from the Midway field also increased during the month 31,872 barrels. As compared with the same month a year ago the present report shows an increase in shipments of 37,820 barrels.

As is usual the Midway increased more than half of the oil of the entire state, it being nearly a million barrels ahead of its nearest competitor, the Coalinga field.

Despite the fact that there is a surplus from the Midway, the report shows demand for west-coast oil exceeding that of August 1912 of more than 300,000 barrels or better than 10,000 barrels daily. The report is as follows:

Field	Aug. 1913	Aug. 1912
Kern River	182,559	178,352
Coalinga	564,152	543,821
Newhall	30,453	43,621
Santa Maria	8,322	6,071
Midway	1,383,221	1,658,720
Whittier	132,324	305,127

UNITED CRUDE WILL IMPROVE PROPERTY

MARICOPA, Sept. 25.—Operator W. R. Bass, of the United Crude Oil Company, which has a valuable property on section 2, 11-24 is putting in many improvements on the lease which has been in his control for the past eight months. A new 70 h. p. boiler is now being set up to furnish steam for a new line pump which will be used to force the product of the lease to the Agency pipe line. The boiler is a make to another 70 which is at present used for power for the running of the wells.

The production of the lease has been run up to 5,000 barrels per month under the management of Mr. Bass. When he secured the lease on a contract whereby any oil was being produced, in all there are six wells 7 of which are producing at the present time. The No. 4 which is the only one not producing will be placed in good repair at once and within the next few days will be added to the other 5 producers.

GENERAL PETROLEUM DEAL IS CALLED OFF

Negotiations With Royal-Dutch-Schell People Finally Abandoned

SAN FRANCISCO, Sept. 25.—Word has been received stating that the deal for the sale of the General Petroleum, the \$7,000,000 California corporation, to the Royal-Dutch-Schell interests, has been called off.

It never has been certain that any negotiations were in fact being entered into, but the advice, at least, lay the rumor to rest.

Several confusing financial articles have appeared about the purchase of the Royal Dutch-Schell due to a similarity of names. The combine has purchased the California Oilfields, Limited, a British corporation, which is in no way involved in the various rumors about the contemplated purchase of the California Petroleum Corporation, a Virginia corporation.

Wilhoit's Homer Brings Victory for Stockton

GINK AND DINK--Some Lessons in Economy

By C. A. Voight

M'KENRY SUFFERS SECOND DEFEAT OF SEASON

Pitcher Grooves Fast One In Fourth With Distasteful Results

Opposing Twirlers Hurl Fine Variety of Baseball During Afternoon

That well-proportioned gentleman, Pete McKenry, is a more serious and thoughtful slabbist since yesterday.

Pete committed an error. It was not one of those kind which find their way into the box score, but rather an error of admission, if it could be called that. In the fourth inning of yesterday's contest, with Stockton, Mac grooved the spindly shoulder high to Lanky Joe Wilhoit and the champions won the second game of the series 2 to 1.

Never again will McKenry do such a thing. By throwing that ball in exactly the manner in which the lanky Stocktonian, Pete lost his second game of the season. Wilhoit laid on that pitch for a drive through the right field atmosphere. The ball dropped out of the lot.

McClellan opened the inning by striking out. Schmidt grounded out to Wheeler. Butler hit down to Berkel and beat the throw to first base. Wilhoit stopped to the plate and clouted the forementioned homer to the car tracks, bringing in the only two runs for Stockton and the score which eventually won the game.

PACKER'S SCORE IN SIXTH.
A brace of hits and a walk gave the locals their only run in the sixth inning. Wheeler drew a walk. Driscoll, who replaced Meusel in right in the fourth, cut a single to center. Fahey hit to Jones, who forced Wheeler at third. Sawyer hit to short and went out. Butler to Thomas. Bender laid down an infield single, which scored Bender.

No longer will Meusel be seen in the left garden. Wheeler granted Irish a vacation for the rest of the season yesterday, for failing to obey instructions. In the third, Irish was spending his time in the outfield, while he should have been on the home bench. Wheeler signaled the Irishman in, but Meusel failed to respond, hence the suspension.

The left fielder also pulled a bone in the third. With Wheeler on first, Meusel hit an infield fly several feet in front of the plate, while Meusel failed to run it out. A throw to first retired both Meusel and Wheeler for a double.

HITS UMP'S IN NOSE.
Umpire Knell was the recipient of a ball in the nose about the second inning.

With Fahey on second, Bender tore a fast grounder to Jones. The veteran slabbist dropped the drive, but the ball took a nasty bounce and before Knell could remove his face from the direct line of the drive, he was hit. His lips suggested about for a few moments and would have fallen had not Jack Thomas rushed to Knell's aid.

A five minute respite was taken. Knell doctored his bleeding nose, and then the game continued.

McKenry twirled a beautiful game, but no less sensational than the veteran Oscar Jones. The former permitted three hits, while the latter allowed five. Two of the five retired.

VERNON BOUTS MUST BE SHORT OR CHURCH WILL STOP MATCHES

LOS ANGELES, Sept. 25.—Unless promoter T. J. McCarey decides to reduce the number of rounds in the scheduled bout between Johnny Dundee and Joe Azevedo, at Vernon, October 14, an effort will be made to stop the match, according to an announcement today by Rev. E. Guy Talbot, manager of the anti-prize fight campaign of the church federation.

"Twenty round bouts are prize fights," said Dr. Talbot. "No objection to short bouts will be manifested, but if this club tries to conduct a twenty round contest, warrants will be sought for the arrest of the men involved on charges of conspiracy to commit a felony as was the case in Ingersfield recently."

PIPPINS RECORD SECOND VICTORY

Teammates Play Close Ball Behind Arlett; Post-Season Series

(Special to the Republican.)

WATSONVILLE, Sept. 25.—Watsonville made it two straight this afternoon by beating San Jose, 7 to 4. Both Pope and Arlett were hit hard but the latter was given the best support and with more timely hitting on the part of the Pippins was returned an easy winner.

San Jose started a batting rally in the ninth and made three close drives, but Arlett steadied and the next three men were easy outs.

It was announced today that the Pippins and the Bears would play a post-season series here during the annual Apple Carnival, which begins a week from Monday. The score:

WOMEN GOLF CHAMPIONS LOSE OUT AT MEMPHIS

MEMPHIS, Tenn., Sept. 25.—Two holders of the championship titles, Miss Carolina Palmer of the West, and Miss E. W. Duhay of the South, were eliminated today in the second round of match play for the open championship of the Women's Western Golf Association. Miss Ruth Chisholm, Cleveland, and Miss Frances Anderson, Myra Heimer and Miss Marjorie Edwards, Chicago, are the remaining contestants.

BRITISH GOLFERS WIN FROM U. S. CHAMPIONS

PITTSBURG, Sept. 25.—Edward Hay and Harry Vardon, British professional golfers, defeated E. M. Byers and W. C. Forness, Jr., former American national amateur champions, in a 36-hole game, 5 up and 6 to play at the Oakmont Country Club here today. The Americans were weak in their putting.

MAY MACK WINS EIGHT STRAIGHTS

MacKenzie Trotter Leads In Final Heats At Pleasanton

PLEASANTON, Sept. 25.—May Mack, R. J. MacKenzie's mare, which has been defeating the coast trotters right down the line, was given her hardest race of the season today. May Mack broke in each of the first two heats and Moko Hal and True Kinney trailed in front. The mare was finally brought to her feet and walked away with the last three heats, making her eighth straight win of the season.

The pace was won by Zalan, a Seneschlight mare out of Amazon by Charles Derby. Summary:

World's Series Opens in New York October 7

CLUBS WILL ADHERE TO ALTERNATING SCHEDULE

Four Umpires Named At Meeting of National Commission in Philadelphia

Refuse to Allow Ball Players to Write Stories of Big Contest

PHILADELPHIA, Sept. 25.—The opening battle for the championship of the world between the Philadelphia Athletics and the New York Giants, providing the latter do not upset calculation by failing to win the National League pennant, will be staged in New York, October 7. It will be the first of a series of games which will be played in New York, two years ago the Giants won the opening contest from the Athletics and last year the Boston Red Sox took the first game.

A flip of a coin decided the place and the date. Harry Hempstead, president of the New York club, making the right guess as Garry Herrmann, chairman of the National Commission tossed up a half dollar.

The commission, which came here today solely for the purpose of arranging the details of the series, met in open session to plan for the games. After the New York club had chosen the time and place, President Lynch of the National League named William Klein and Charles Riggler as the umpires on the part of his organization and President Johnson named Thomas H. Connelley and John J. Egan to represent the American league.

The rules for playing the games are the same as heretofore except that in case of a legal tie game the teams will not remain in the city where the tie occurred to play it off but will adhere to the schedule of alternating each day between the two cities.

In case of postponements the teams will remain in the city where the game was postponed until it is played.

The National Commission will not have charge of the distribution of tickets, it having been left in the respective clubs the method they shall pursue in selling them.

The members of the National Commission had nothing to add today to their announcement made in Cincinnati Wednesday night that ball players participating in inter-league series would be discouraged from writing sensational articles for the newspapers.

Attention was called to the fact that certain members of the New York and Philadelphia clubs had already signed contracts to write such articles, but the commissioners said they were not concerned about that.

GAMES START AT TWO.
All games will start at 2 p. m. and there will be band concerts from 11 a. m. to 1 p. m. The players eligible for the series are:

New York—Burns, Cooper, Cranford, Doyle, Demaree, Fletcher, Fromme, Grant, Harzog, Hartley, Marquard, Whitte, Mathewson, Murray, Meyers, McLean, Merkle, Robinson, McCormick, Shaffer, Snodgrass, Thorpe, Tesreau, Wilson, Schupp.

Philadelphia—Schang, Lapp, Thomas, Bender, Plunk, Combs, Hovick, Brown, Shawkey, Pennock, Bush, Wyckoff, McIntosh, Collins, Barry, Baker, Orr, Davis, Lavan, O'Rourke, Strunk, E. Murphy, D. Murphy, Walsh, Duly.

TO STAND COURT-MARTIAL FOR MILITIA SHORTAGE

SAN FRANCISCO, Sept. 25.—By order of Adjutant General Forbes, Captain E. B. Moore, Second company Coast artillery, must face a court martial next Monday night on the charge of misappropriating funds of the National Guard. Pending trial he has been removed from duty.

"We estimate," said Captain Allan Wright, adjutant of the Coast artillery, today, that Captain Moore is short approximately \$150. We did the next we could to straighten this out but without avail."

Captain Moore was for twenty years in command of the California Greys, the crack military organization of San Francisco. He is bonded for \$2,000.

Dr. Hunt cures constipation.

Famous Veterans Of Slab May Meet In World's Series

Plank (top) and Mathewson

"Two of the old timers," they call Plank of the Athletics and "Mat" of the New York Giants. It is possible that they will be pitted against each other in the world's series next month. Plank is beginning to feel his age, Mathewson is apparently almost as good as ever.

SPORTING NOTES

Pete McKenry, the big twirler of the league, in the latest man to be recalled to Los Angeles. Mac leaves for the south tomorrow night and will be used in several of the games before the close of the present season. Sawyer will probably leave tonight.

Kid Owens will not be seen in the box today against Stockton. A telephone message received from Hughes last night stated that Owens could not come, owing to private business. Ben Preciado will bring a big twirler down from Madera. Whether he is able to give his name.

Sawyer will meet the Athletics at Stockton Sunday. E. Jones now has charge of the Reds.

Considerable interest is being shown at Modesto in the Modesto-Torlock game Sunday. Torlock is one of the three teams, in addition to the Modesto Reds, that has succeeded in defeating Hughson. Hughes and the Reds have each won one game and the rubber will be played in Modesto a week from Sunday.

Infielder Arthur Devila has been purchased for the Boston Nationals league club and will be the playing manager for the 1914 Oaks, according to an announcement made yesterday by President Frank W. Leavitt, who returned from the East after concluding negotiations. Devila will arrive here October 1 and will get into the game at once, though he will not receive managerial reins until next year.

Johnny Kilbane of Cleveland, champion featherweight, outclassed Joe Goldberg at Rochester all the way in a ten round bout last night.

Regarding the disposition of the present manager, Carl Mitze, Leavitt

Fanning Twirls Steady Ball But Loses Out In Two Bad Innings

PORTLAND, Ore., Sept. 25.—Although Fanning of the Seals was much steadier than Bill James, who pitched for Portland today, the visiting stabber had two bad innings and Portland managed to put across four runs to San Francisco's two. Fanning gave way to Henley after this, but the damage was done.

Howard and McArdle were banished from the field for questioning Umpire Busch's judgment of a strike. The score:

TAKE STEPS TO ORGANIZE CITY BEAUTIFUL COMMITTEE AT LARGE PUBLIC MEETING

New Body Will Have Twenty-One Members; Committee of Five Is Appointed To Act As Nominating Board; To Report Next Week

Initial steps toward the organization of a City Beautiful Committee were taken last night at a well-attended public meeting held in the city hall. The meeting decided upon a name for the committee, the number to be on the committee and the method by which the committee members will be chosen. Another meeting will be held at the city hall next Thursday night at which time it is expected that the members of the City Beautiful Committee will be announced.

The City Beautiful Committee is to consist of twenty-one members. There will be eleven men and ten women, the odd man being the mayor. A committee of five was authorized at the meeting to act as a nominating committee. This committee will receive suggestions as to possible members from organizations and individuals and submit suggestions as to possible members to the full committee. This committee will not only name members, but will secure their consent to act. Any who suggest names are asked to send them to E. M. Prescott, secretary of the committee. His address is Box 818, Fresno.

The members of the nominating committee are Mayor Snow, W. W. Phillips, Mrs. George L. Wardlaw, A. M. Drew and Sig Wormser.

PRIZE FOR PLANS
Immediately following the meeting, W. W. Phillips, president of the Fresno County Chamber of Commerce, announced that the committee of five would be appointed to select a plan for the city.

When the meeting was about to leave the appointment in the hands of the committee of five without making provision for other organizations and individuals to suggest names, the mayor entered a mild protest, saying that it would be practically impossible to select the committee unless names could be suggested.

The only big split in the meeting came when a motion was made to give the committee a name at once. The name City Beautiful Committee was offered. When the matter was put to a vote, there was decided opposition to the action, although not to the name. The motion carried, however, by a vote of 35 to 25. After this incident, which created quite a good deal of amusement, a quick adjournment was ordered.

The council chamber of the city hall was comfortably filled for the meeting with representatives from every civic and semi-civic organization in the city and other individuals, and a number of ideas were advanced for City Beautiful work.

Mrs. George L. Wardlaw, chairman of the city department of the Public Health department, suggested that the committee might work to remove unsightly bill boards and that it might beautify Fresno street from the city hall to Kearney avenue. W. W. Phillips suggested that there be uniform free planting on the streets and it was also suggested that a number of the streets need cleaning.

A suggestion that a contest be started to arouse interest in city improvement work, was very well received, but no action was taken by the meeting. This contest is the one for which the Chamber of Commerce will offer a prize of \$20.

ROGERS GETS MORE SUPPORT FOR LINE
J. H. Rogers, who is promoting an electric line to Clovis, said last night that he had secured two more signers for his line. He said that he was meeting with more success every day. Rogers said that he was here for the purpose of entering into any controversy with the promoter of another interurban line and that if the people wanted his line all they had to do was to meet his agreement, and if they did not he would step out. Rogers said he would work for the interurban as long as Mahoney Brothers were willing to finance it, but that if they invested their money in something else why he would have to stop.

WINE GRAPES WILL REACH \$13 MARK IS PREDICTION

E. L. Spellman Visits Local Vineyards Which He Is Agent for

Says Wine Grape Growing Is Becoming Best Industry In State

That wine grapes would reach the \$13 mark or over was the prediction made last night by E. L. Spellman of New York City, one of the largest exporters of California liquors in the East, who is in this city inspecting his vineyards at Fowler and Selma and the Barton vineyard, for which he is the sole agent. Spellman has been in Fresno for the last week looking the country over and planning the movement of this year's production of liquors from the properties in which he is interested. He is making his headquarters at the Hotel Fresno.

"California liquors," Spellman says, "are rapidly coming into their own the world over and especially so in this country. The consumption of wines from this state is increasing rapidly, far more in proportion than that from foreign countries. The people are finding out, after years of hard fighting in the interests of California liquors, that there are no others made in any foreign country which can surpass them."

"Even foreign governments themselves are beginning to realize that goods from this region are the best on the market. They are increasing their orders every year at a great percentage. Every German, French, Spanish and Italian war ship which visits New York city takes away with it several barrels of our wines. In the course of a year's time this amounts to several thousands of barrels."

"At the present rate of increase in orders from Germany I am of the opinion that within a short time we will sell to that country alone a million gallons of brandy in the course of a year. The German government will not use any other than California goods in the hospitals of the army, the navy and in many public institutions."

FOREIGN COUNTRIES
"By advertising and salesmanship of the right kind, coupled with the best goods produced in this state, we are bringing this same condition of affairs about not only all over this country, but in several foreign countries as well."

All of this is to the benefit of the wine grape grower of California. I believe that there is no better industry in this state than that of wine grape growing. Prices are generally good and there is not near the trouble to harvest the crop as there is in the handling of raisins. The difference in price hardly pays one for the trouble in handling the raisin crop."

"In the planting of new vineyards I am of the opinion that it would be best to plant wine grapes, as the demand for California liquors is increasing at a rapid pace."

"It is this demand, which has been brought about by thirty-one years of hard work upon the part of the sales agents for California liquors, and the shortage of the crop, which is the cause of this prediction that wine grapes will probably advance in price before the season is over."

CROP SHORTAGE
"During the time in which I have been coming to this district—my first trip was in 1882—I have heard that the crop was short. Each time I have investigated and at the end of the season found that the crop nearly always was pretty good. This year, however, it is different. The growers and others who are in the wine industry say that the crop is short and in my investigations throughout the district I am led to believe that they are right."

PRODUCTION EXPECTED
"I expect a production of between 300,000 and 400,000 gallons of brandy off the Fowler and Selma vineyards, during this season. In order to be better able to care for this liquor I have ordered the expenditure of about \$50,000 on improvements. The yield of the Barton vineyard this year will be about 1,250,000 gallons of liquor. This will consist mainly of port, sherry, Angellina, Moscatel, Tokay, Malaga and brandies."

RESIGNS POSITION IN SAN FRANCISCO

P. D. Tabler to Help Rogers Get Right of Way for Interurban

P. D. Tabler, sales manager for the Pioneer Motor Truck Company of 515 Van Ness avenue, San Francisco, yesterday resigned his position and will assist J. H. Rogers in securing rights of way for an interurban line to Clovis. Tabler has been in Fresno for the past month assisting Rogers. As his leave of absence from the motor company expires the first of next month, Tabler intends to make his residence here.

ROBERTSON LEAVES TO PLAN DISPLAY

Secretary William Robertson of the Chamber of Commerce left for San Francisco last night to make arrangements for the Fresno county exhibit which will be made at the California Fair Show, October 1, 11 to 25th. Fresno county will have 600 square feet at the show and Robertson plans to have an excellent industrial and dried fruit exhibit. Robertson already has a quantity of fine rice grown in this county and plans to make a display of it.

CALLAN LIEUTENANT OF MILITIA COMPANY

C. A. Callan was elected second lieutenant of Company K of the National Guard last night at the meeting in New Armory hall to fill the position vacated by Lieutenant Meyer several weeks ago. Callan has held the position of first sergeant in Company K for several years and is one of the most prominent militia men in Fresno.
